A full-service agency dedicated solely to the sector, the firm was established in Sydney in 1998 and provides bespoke consultancy and implementation services in Australia, New Zealand, the United States, Asia Pacific and EMEA.

Critical Differentiator

Our critical differentiator is our ability not just to provide advisory and consultancy, but to actually undertake and successfully deliver anything that we would ask you to do.

A Human and a Business View of L&D

At Consultica, we not only think of the human element of the learning process, but also of the business success element. All our advisory and implementation services are grounded in reality. We are pragmatic in our pricing, our philosophy and our frameworks. This is your assurance that we understand organisational imperatives and pressures and know the challenges of L&D departments.

Balanced Scorecard Approach

Our approach to all the work we do is that it must fit in with your overall strategic direction and business planning. We can speak the L&D language and that of the Board. This helps us achieve balance in our projects as we align our work to your Balanced Scorecard goals.

Broad Knowledge Spanning 12 Countries

We have undertaken projects in 12 countries around the world and work closely with our clients to ensure that we can link them to our network base to take advantage of mutually beneficial opportunities.
